SUMMARY

I'm a B. Tech student (2022–2026) in Computer Science with a focus on Artificial Intelligence and Data Science. I've completed internships in cybersecurity and software development, built ML models, dashboards, and chatbots, and have hands-on experience with Python, C++, SQL, Power BI, OpenCV and network analysis tools like Wireshark.

EDUCATION

IIMT College of Engineering	Oct'22 – jul'26
Bachelor of Technology in Computer Science and Engineering (AI & DS)	CGPA:.8.0
St. Columbus school, New Delhi	2021
CBSE(XII)	88.62%
St. Columbus school, New Delhi	2019
CBSE(X)	85.40%

TECHNICAL SKILLS & INTERESTS

Languages: Python, C, C++, SQL, Web Dev (HTML, CSS,JS).

Tools and Frameworks: PyTorch, TensorFlow, Matplotlib, Pandas, NumPy, Scikit-Learn, Llama Index, Lang Chain, Hugging Face, Git, Prompt ,Power BI, Excel.

EXPERIENCE

VARUN BEVERAGES LTD (PEPSICO) – SOFTWARE INTERN

Sep 2024 – Oct 2024 | Gurugram

- Developed responsive React interfaces to improve internal operations and reduce manual data entry.
- Built API-driven dashboards to track supply-chain KPIs and visualize operational metrics.
- Analyzed business data using Python and Excel to support data-driven decision-making.

DFIR IIMT – CYBERSECURITY INTERN

Jun 2024 – Aug 2024 | Greater Noida

- Monitored live network traffic using Wireshark, assisting in incident response and packet-level investigations.
- Built a Python chatbot to deliver real-time CERT advisories to enhance security awareness.

PROJECTS

Reverse Bidding Agentic AI Platform |

Personal Project

[GitHub](#)

- Developed a multi-agent AI procurement platform for automated vendor sourcing, quote evaluation, and reverse bidding using LangChain and CrewAI.
- Implemented LLM-based negotiation, agent orchestration, and Reflexion-driven reasoning for adaptive decision-making.
- Built a FastAPI–Streamlit dashboard with WhatsApp (Twilio API) integration for real-time communication and analytics.

Drowsiness Detection with Real-Time SOS Alert | Personal Project

[GitHub](#)

- Built a real-time driver fatigue detection system using OpenCV and ML/CNN models to identify eye closure and drowsiness from live webcam feeds.
- Integrated Twilio API to automatically trigger SOS SMS/call alerts with live location upon fatigue detection.
- Trained and optimized models using eye-aspect ratio and CNN-based feature extraction for robust performance across lighting conditions.
- Designed to enhance road safety by enabling early detection and automated emergency response.

Chatbot with OpenAI API | PersonalProject

[GitHub](#)

- Developed an AI-powered chatbot using OpenAI LLMs to understand and respond to user queries with strong contextual relevance.
- Implemented prompt engineering and conversation memory to support coherent, multi-turn dialogues and context retention.
- Built a real-time Python-based chat interface with seamless API integration for dynamic interactions.
- Designed for general assistance, knowledge retrieval, and human-like conversational experiences.

SpotifyData Analysis Dashboard – Music Meets Data | Personal Project

[GitHub](#)

- Built an interactive Spotify-themed Power BI dashboard analyzing 70,000+ tracks to uncover global music trends and listener behavior.
- Created insightful visuals including top artists/tracks, monthly & weekly heatmaps, and audio feature analysis (Danceability, Energy, Acousticness).
- Used Deneb (Vega-Lite) for rich, story-driven custom visuals, integrating album art and release trends for higher engagement.
- Enabled dynamic exploration with interactive filters by Artist, Track, and Year for personalized, data-driven insights.

CERTIFICATIONS

- Salesforce.com Administration, Salesforce Lightning (Salesforce trailhead)
- Cloud Infrastructure 2025 Certified AI Foundations Associate (Oracle)
- Data Science (GeeksforGeeks)
- Introduction to Career Skills in Data Analytics ,Power BI (Microsoft)
- Postman API Fundamentals Student Expert Postman API Fundamentals Student Expert(Postman)
- SQL (Hacker Rank)

ACHIEVEMENTS

- 1st Place – International Hackathon, Amity University, Noida
- 1st Place – National Hackathon, GL Bajaj Institute, Greater Noida
- 1st Place – National Hackathon, NIET (Noida Institute of Engineering & Technology), Greater Noida.
- 3rd Place – Hackathon at Manav Rachna University, Faridabad
- Olympiad Winner – 1st & 3rd in Math and Science Olympiads
- 3rd Place – College-Level Badminton Tournaments (Twice)
